Specification

Type	Finish Film	Color	Application	Dilution (by volume)	Coverage (Sq.m. / Gallon / Coat)	Drying Time (hours)	
						(Surface Dry)	(Dry to recoat)
Acrylic Resin and Chlorinated Rubber	Matt Non-Reflective	Black / Red White / Yellow	Brush / Roller / Spray Gun	Mix with TOA Thinner No.81 (10-15% Approximately)	25 - 30	10-15 minutes	1 hour
	Matt Reflective		Brush / Roller				

System

	Old Surface	New Surface
Step 1 Surface Preparation	<ul style="list-style-type: none"> Leave the surface to completely dry The surface to be used must be clean and free from dust, grease and stains. Oil stains, wax, salt stains and other contaminants 	<ul style="list-style-type: none"> The surface to be used must be clean and free from dust, grease, oil stains, wax, salt stains, old paint and other contaminants. Chalk or deteriorated surfaces must be scrubbed clean with a nylon brush. Surfaces with moss and fungi should be removed with TOA113 Microkill Clean the surface with water and a suitable cleaner, then rinse with clean water again before leaving it to dry completely.
Step 2 : Primer	<p>Note : In case of polished surface, it is recommended to paint the primer with TOA Penetrating Sealer at least 1 coat and let it almost dry for 3-4 hours to increase adhesion. Before painting with TOA Roadline Paint</p>	
Step 3 : Topcoat	<ul style="list-style-type: none"> Topcoat : Apply at least 2 coats of TOA Road line Paint (Within each coat, let it dry at least 1 hour before applying the next coat). 	

หมายเหตุ: สีที่แสดงบนหน้าจออยู่ภายใต้การคาดคะเนจากสีจริง แนะนำก่อนสั่งซื้อสามารถเช็คสีจริงจากเว็บงานตัวอย่าง ได้ที่ TOA Thailand Remark: Colors on screens might differ from TOA Fandec due to factors like lighting and device settings. To ensure accuracy, double-check with the shop that have TOA color sample boards or sample models around your location.
